Ser 3.6/8513

JAN 24 2000

From: Head, Logistics Support Department (AIR-3.6)

Subj: NAVAL AVIATION LOGISTICS COMMAND MANAGEMENT INFORMATION
SYSTEM (NALCOMIS) OPTIMIZED ORGANIZATIONAL MAINTENANCE
ACTIVITY (OOMA) BUSINESS PROCESS DIFFERENCES

Encl: (1) NALCOMIS Business Process Differences

1. In support of Optimized NALCOMIS implementation, AIR-3.6 has
developed a Business Process Improvement document to identify
changes between Optimized and Legacy NALCOMIS Organizational
Maintenance Activity (OMA). The attached enclosure has been
formulated to document these changes, ensure Naval Aviation
Maintenance Program (NAMP) change recommendations and deviations
are submitted and to serve as a training aid for fleet prototype
and implementation. Although not all inclusive, the enclosure
serves as documentation of the major changes between the "as is"
and the "to be" processes.

2. In an effort to continually ensure updates are documented,
the OOMA Business Process Differences package will be hosted on
the NAMP web site accessible for review, use and comment.
Successful Optimized NALCOMIS OMA implementation depends heavily
on information sharing and effective problem identification and
resolution. It is desired that applicable Type Commanders,
Central Design Activity, Fleet Design Team, and fleet personnel
review this document and provide continual input in order to
share information necessary to achieve desired goals and
objectives. Your support in this effort will help ensure
success of these new business processes and fielding of this
revolutionary management information system.

3. NAVAIR point of contact is LCDR Johnson (AIR-3.6.1.3), DSN or
commercial 757-8813, or FAX (301) 342-7741 or email
JohnsonLM2@navair.navy.mil.
